SUMMARY

Business Intelligence Developer with approximately five years of TCS experience in enterprise BI, data modeling, reporting automation, and data integration. Migrated 6+ applications from QlikView to Power BI. Currently pursuing an MSBA at Boston University's Questrom School of Business while on a graduate study sabbatical.

TECHNICAL SKILLS

BI and applications: Power BI, QlikView, PowerApps, Power BI Dataflows, Qlik NPrinting

Data modeling and integration: SQL, Snowflake, Azure Data Factory, DB2, Microsoft Fabric

Automation and orchestration: Python, Airflow DAGs

PROFESSIONAL EXPERIENCE

Business Intelligence Developer | August 2021 - August 2026

Tata Consultancy Services (TCS) | Bengaluru, India

- Developed enterprise BI implementations, dashboards, and reports with Power BI and QlikView.
- Migrated 6+ applications from QlikView to Power BI.
- Worked on data modeling and SQL-based transformations supporting enterprise analytics and reporting.
- Worked with Snowflake and Azure Data Factory for data integration and cloud data workflows.
- Developed Python automation and worked with Airflow DAGs for data workflows and reporting automation.
- Gained client exposure across Stellantis, Samsung, and Bosch through enterprise BI delivery.

EDUCATION

Master of Science in Business Analytics (MSBA) | September 2026 - Present

Boston University, Questrom School of Business | Boston, MA, USA | 16-month track

Bachelor of Engineering (BE) | Graduated 2021

Electronics and Communication Engineering with CS

SDM Institute of Technology | Visvesvaraya Technological University (VTU)

GRE: 330+

Relevant coursework: Probability and Statistics, Data Structures Using C++, Object-Oriented Programming, Operating Systems, Digital Signal Processing, Management and Entrepreneurship

SELECTED TECHNICAL PROJECT

Quadruped robot for navigation and IoT monitoring | Engineering capstone

- Engineering project documented in a 35-page report, with Python modules for servo control, OpenCV navigation decisions, and environmental sensor monitoring. Public source is a partial implementation of the documented system.

LEADERSHIP AND RECOGNITION

- Team lead for two Fall 2026 Questrom course teams; coordinated deliverables, delegated tasks, and maintained schedules.
- BU Information Technology volunteer; taught IT and programming fundamentals to support onboarding.
- TCS: Special Initiative Award (2024), Best Team Awards (2022, 2023), and On The Spot Award (2022).
- Received recognition from Stellantis and Samsung leadership; led analytical-thinking workshops for engineering students and mentored junior TCS analysts on BI and analytics practices.
